NISHVIKA TEJA REDDY

+91 6363092235 | nishvikatejar@gmail.com | LinkedIn | GitHub | Bengaluru, Karnataka

Education

Dayananda Sagar University — **2023 – 2027**
B.Tech in Computer Science & Engineering (Artificial Intelligence & Machine Learning) — **CGPA: 9.35 / 10**

Christ Academy Junior College — **2020 – 2022**
Pre-University Course (PCMB) — **Percentage: 95.17%**

Lorven Public School — **2020**
ICSE – Class X — **Percentage: 86.2%**

Technical Skills

Programming Languages	Java, Python, C, SQL
AI / Machine Learning	Machine Learning, Deep Learning, NLP, Computer Vision, Transformers, Scikit-learn, TensorFlow, PyTorch, OpenCV, Pandas, NumPy, Matplotlib, SHAP
Full Stack Development	HTML, CSS, JavaScript
Databases	MySQL, MongoDB
Cloud	Oracle Cloud Infrastructure (OCI), AWS Academy Graduate – Cloud Foundations
Developer Tools	Git, GitHub, VS Code, Google Colab, Jupyter Notebook, Postman
Operating Systems	Windows, Linux

Projects

Voice-Based Parkinson's Disease Detection — GitHub
Python | Scikit-learn | Random Forest | SHAP
- Developed an explainable ML model for early Parkinson's disease detection using voice biomarkers.
- Achieved **94.87% accuracy** using Random Forest with SHAP-based interpretability.
- Published the research at **IEEE IATMSI 2026**.

Depression Detection using Transformer Models — GitHub
Python | DistilBERT | NLP | Transformers
- Built the SEEN-NLM framework combining DistilBERT with sentiment and lexicon features.
- Improved depression classification by increasing recall and reducing false negatives.
- Accepted for publication at **ECMI 2026**.

Explainable Cervical Cell Classification — GitHub
Python | TensorFlow | CNN | OpenCV
- Developed an attention-enhanced deep learning model for cervical cell classification.
- Applied explainable AI techniques to improve model transparency.
- Built an end-to-end pipeline for cervical cancer screening.

Ride Fare Prediction using MLOps — GitHub
Python | Scikit-learn | MLflow | DVC | FastAPI
- Built an end-to-end MLOps pipeline for ride fare prediction.
- Used MLflow and DVC for experiment tracking and data versioning.
- Developed a FastAPI service for real-time fare prediction.

Publications

- **Machine Learning Techniques for Parkinson's Disease Detection Using Voice Biomarkers** *IEEE IATMSI 2026*
  Published in IEEE Xplore.
- **Depression Detection from Text Using Transformer Models with Sentiment–Lexicon Augmentation** *ECMI 2026*
  Accepted for publication.

Certifications

- ServiceNow Certified Application Developer (CAD)
- ServiceNow Certified System Administrator (CSA)
- Oracle Cloud Infrastructure AI Foundations Associate
- AWS Academy Graduate – Cloud Foundations
- IBM Cloud Computing Fundamentals
- Infosys Springboard – Linux for Beginners

Achievements

- First Prize Winner – Ideathon (PetPal)
- Smart India Hackathon 2025 – Participant
- DEVHack – Participant
- TechFusion 2025 – Participant
